Page 28 - Assessment Techniques

Assessment techniques may include but are not limited to: assignments; essays; oral or written tests, including midterms; participation in class discussions; seminar presentations; artistic performances; professional practica; laboratory examinations; “open book” or “take home” examinations; and examinations administered by the instructor or Registrar during formal examination periods. ~~Students may not participate in the determination of their own or another graduate student’s grade, in whole or in part, in any course..~~

Graduate students may be asked to reflect critically on their own work or the work of other graduate students; however, in all courses, instructors are responsible for the determination of grades. Graduate students may not grade the work of other graduate students, except that the grading of individual assignments may be delegated, under close instructor supervision, to doctoral student teaching assistants who have completed all of their coursework and passed their candidacy exams. Graduate students may not serve as the instructor of record for graduate students.
