Text: Eike-Henner W. Kluge *Ethics in Health Care: A Canadian Focus*. (Pearson: Toronto, 2013)

Formal Course Requirements and Grading Procedures

Since this course deals with practical issues on the interface of theory and practice, emphasis will be placed on demonstrated understanding and mastery of the ethical concepts and reasoning in their application to various actual cases. This understanding will be tested through formally scheduled examinations: two mid-terms and a final examination. The mid-term examinations are fifty minutes long and the final examination is three hours in length. The mid-term examinations are each worth 20% of the course grade; the final examination is worth 60%. Those who have taken (and received a grade for) both mid-term examinations have the option of having the final examination count for 100% of their course grade. The examinations are cumulative in the material they cover. Students are allowed to bring any notes they have authored themselves into the examinations.

Significant dates:

- Mid-term examination #1: app. Oct. 5
- Mid-term examination #2: app. Nov. 9
- Final examination: scheduled by the university

Exceptions from course requirements, adjustments for taking examinations at set examination dates, etc. will only be made in accordance with UVic regulations as published in the Calendar. It is the responsibility of the students to acquaint themselves this fact and the relevant dates. The mid-term examinations will be returned as soon as they are graded. Final examinations are the property of the University and will not be returned. They are available for viewing at the Records Office at a time designated by the University.

Grading:

Grades will be assigned on a percentile basis with letter grade equivalents as follows: F=0-49; D=50-59; C=60

University Calendar will be dealt with in accordance with University

7. Right to Health Care

Assigned reading: Chapter 9

- A. Definition of “Health” and its Implications
- B. Health Care as a Right vs. Health Care as a Commodity
- C. The *Canada Health Act* and Significant Developments
