

## **Transport Canada First Aid Courses must:**

Meet the Transport Canada Program standards in Marine First Aid as outlined in TP 13008E: <http://www.tc.gc.ca/eng/marinesafety/tp-tp13008-menu-142.htm>

This can include Marine Basic First Aid or any other recognized Provincial/Territorial Basic 16-hr First Aid Training course.

The Marine First Aid course is recommended as the scenarios practiced are directly applicable to a marine environment. However, as long as the First Aid course meet the criteria in TP 13008E Chapter 3 – Marine Basic First Aid, it is acceptable.

An example of a qualified training provider acceptable under Transport Canada guidelines is Alert First Aid: <https://www.alertfirstaid.com/courses/first-aid-courses/marine-basic-first-aid-with-c-level-cpr>
