CAPE 3.0: Results from Nova Scotia

NS

The Canadian Alcohol Policy Evaluation (CAPE) provides rigorous assessments of how well each level of government in Canada is implementing policies proven to reduce harm from alcohol use. This is the third edition of the CAPE project; a project which has a track record of strengthening Canada's response to alcohol harm. Policy data for CAPE 3.0 were collected between June 1 and December 1, 2022.

WHAT CAN BE DONE: AN ALCOHOL POLICY APPROACH

NS's CAPE Scores: What's Possible?

If Nova Scotia implemented all the best existing policies across Canada's provinces and territories, their score could change from 38% (F) to 80% (A-).

If we graded NS against best existing policies across provinces and territories, their score would still only be 47% (F).
