Resolving Conflicts

Community Leaders are assigned to help mediate conflicts, but it's important to meet in person with the person causing a conflict to see if you can talk it out first. Communicating only in writing can cause miscommunications and escalate the situation.

Conflict should be address in appropriate amount of time—when is the latest it should be addressed (e.g. end of the day, two days, one week)?	
How will you use respectful language when communicating to your roommate(s) that a behavious has caused conflict? (e.g. using "I feel" statements, asking for their perspective, compromising)	
How often will we look at this agreement or meet as a group to make changes?
