

Report from Events Committee

September 2011 – May 2012

Over the past academic year, while students were in classes, UVic retirees also had opportunities to discover more about local and national developments in culture, history, and science. Our fall program took us back to the 1800's and gave us insight into the area's agricultural background at Heritage Acres, education and social life at Craigflower Manor and Schoolhouse, and our marine heritage at the Maritime Museum.

Our Christmas Luncheon moved to a new venue in the Cadboro Bay Mall.
