

Everything! But what makes it particularly exciting is being able to work with really committed, thoughtful colleagues who bubble with great ideas.

1. My kids.
2. Helping to shape thinking about the operation of the ocean through time and the links between physical, biological and chemical phenomena in the sea.
3. Helping the academic community in BC now work to investigate options for improved climate-change policy.

Picking cherries on the family orchard at age 5. When I was eight, I made a total 39 dollars working on the orchard for the entire summer. That was enough to buy half a three-speed bicycle.

Elgar's cello concerto, Rachmaninov's third piano concerto, Crosby/Stills/Nash and Young, K.D. Lang, Paul Simon

Magenta

In my 10-year old Honda Civic (I don't live near a bus route)

Grow vegetables, apples, pears, strawberries and raspberries in the back yard, play golf, play bridge, and sing in a choir

Barack Obama

It's one of the best places in the world in which to work: great setting, excellent collegiality, wonderful people, and a can-do attitude.

Curious, optimistic, impatient, broad interests

Learn mathematics, even if your interest is not in science. Stay open-minded. Read, read, read – everything, from poetry to science to philosophy to many newspapers. Think critically. Question
