Course Objectives: To provide a understanding of the diversity in land plant anatomy, morphology,
modes of growth and reproduction; and of land plant evolution and the impact of climate change on plant diversity.
Final Exam- cumulative (April 2024) 35%

Midterm and final exams will be based mainly on lecture material, but will also include some questions that reinforce concepts. Midterm and final exams will be in-person, closed book, multiple choice, short answer and diagram questions. There will be no deferred exams. If you miss one midterm, the evaluation breakdown will be as follows: 1st midterm (20%), 2nd midterm (20%), final exam (60%). If you miss both midterms, the second missed midterm will be given a mark of zero. A student will be considered if a formal Request for Academic Concession is provided.
