This document is for informational purposes only and is not all encompassing. Students should read the University Calendar and review their CAPP report (degree evaluation report) for information specific to their program. Students are responsible for the completeness and accuracy of their registration and for determining the requirements of their program (i.e. course prerequisites, minimum program and grade requirements, MX and cross-listed course notations). The program worksheets are intended to be the most direct route to receive a BA or BSc Honours degree, but other schedules can be followed as long as you meet the course requirements by the end of the second term in year 3.

⁸ Students in the BA program require permission from the department to register in ECON 400 (and 401). (It is recommended ECON 400 and 401 be taken in the fall term in Year 4 with ECON 499). ECON 350 and ECON 351 are required for ECON 400 and 401 respectively.
