# University of Victoria Department of Geography Introduction to Human Geography Geography 10B, Sections A01, A03-A07, Spring 2015 Course Syllabus

Instructor Prof. Teresa Dawsotdawson@uvic.cd; arry Hickman Building (HHB) 126

Lab Assistants Kinga Menu (Senior Laboratory Instructor) kmenu@uvic.ca

Class time Monday 11:30AM - 12:50 PM David TurpinBuilding (DTB) A120

Thursday 11:30AM - 12:50 PM David TurpinBuilding (DTB) A120

Office Hours Monday and Thursday 1:00 PN2:00 PM in HHB 126 and appointment

### Communications

- x Course information, tips, reminders, lab outlines, FAQs, all notices is a CourseSpaceste for this course—please go here first and pleasisit often. This is where I will put anything I think might help you. Please check your preferred email address is correct so you do not miss anything.
- x Emailing me:tdawson@uvic.ca. Please pubeog101b: your name: brief subject> in the heading. This allows me to sort at the end of each day to check for emails and not miss anything.
- x Making an appointment: I welcome you to come and discuss your geography ideas and questions at times other than office hours. Howe, veam often in meetings so I don't want to miss you. Please email Itc@uvic.ca(Carolyn Boss) to make an appointmentPlease also make sure you canticel appointment if you are not coming to allow someone else to be to the total the slot.

# Description

Human geographers have a special way of looking at the world. We are curious as to how "where" things happen influences the "how" and "why" of them happening. We explore the relationship between humans and our environment at different scales (from the personal to the global). We search for knowledge and understanding that allows us to advocate for a better, more just society and we argue respectfully about what that means! We ask challenging questions. Why do some people have more and some less? What do healt societies look like? How do you "read" an urban landscape to understand what is occurring in it? What role can each of us play in making a better world?

My goal during this course is to convince you of the value of an uge ography in understanding the world around you. I hope that by the end of the course you will be abilistic like a geographerand "see geography all around you" by known the kinds of questions human geographers ask to understand and address the issues they encount of course lalso hope you will want to go on and study more geography

- people and being able to give real world examples to support your points.
- x Build a strong knowledge foundation on which you can rely for success in future geography courses or wherever your related interests mayetaku. This means learning about some of the most important ideas, techniques, concepts quiestions in human geography and knowing when and how to use themappropriatelylt also means developing an appreciation of the breadth and depth of interests thalhuman geographers have.
- x Learn to critically assess the validity of geographical data or images that are presented to you in the public arena. This means knowing enough about mapping and data representation skills to know what question ask to determine when the "facts" might not be the "facts."
- x Begin to develop your own sense of global citizenship that works for you (histies a lifelong process).
- x Acquire a strong academic skills foundation on which you can rely for any future goals you may have. This means learning excellent communications skills (in writing different audiences speaking presenting advocating, listening, and working collaboratively in teams to skills (to find the resources you need, to analyse data and tempites ffectively; and how to ask really good questions well as to determine what evidence you need to answer them (and how to get it).
- x Get into the habit of being curious about things and challenging yourself to take learning risks.
- x Love geograph just a bit more at the end than you did at the beginning.

# **Building Community**

We have a challenge in thicourse. There are a lot of thicowever, to succeed collectively we have to build an academic community. This means sharing with each other angliprepared to reach droit talk to and help, people we do not know in order to creatennections in a crowd." This is much harder with a large number of people but I also know it is essential to everyone's success so I hope you will help me do it. Please bring your ideas to class...and share them. Please check in on your neighbour. Please speak up who matters.

How to prepare for class Before each class

- x Go to CourseSaces
- x Download the one page "session outline" for the next class and read it over. Make a note of the Felal (3) to see the (s) (ks) (6). ]TJ 38.133 0 Td () Te1xw itar8 Tc 6(M)12(ak) 517 0 B1 k 517 0 C

### REQUIRED COURSE READINGS:

- Fouberg, Erin, H. et a2012. *Human Geography People, Place and Culture: Canadian Edition*.

  Mississauga, ONJohn Wiley & Sons Canada, Ltdhis text is available at the bookstore. There should be three options:text, shrink wrapped for bindeand hardback. Eext is cheapest.
- Globe and Mail (or other major national newspaper). The G&M does have discounts for students, you can get it online and you only need to do so once per week to have enough material for the arctivities the course Monthly should be around \$10 a month subscription for three months of the course at the student rate (Saturdays only) ou are welcome to share with friends (just pick different parts to use).

Other brief readings will be provided as needed support key concepts

### **COURSE COMPONENTS**

The course is designed to achieve the learning goals and outcomes stated above. Each component is specifically designed to achieve a particular outcome and collectively they will give you a strong foundation in human geographyll aspects of the course will be assessed on tests and exams.

- Class Meetings—We will all meet togetherwice a week (Mondays and Thursdairs) lectures' Lectures will include class activities as well in order to ensure that you understand the really important concepts. Lectures will also introduce lab assignments and help you to understand how they relate to other aspects of the course. I may bring visitors to class occasionally when their research work is relevant to our learning and I think you might enjoy meeting them and hearing about the kinds of geography tay do.
- Labs—Labs areonce per week starting in week They are taught by our very experienced geography teaching assistants (They have seen by our Senior Lab Instructoreally encourage you to get to know your TA. He/she is an invaluable coessee for you Lab sessions form an integral part of the course You will be able to explore concepts from lecture in more dept learnnew ideas and practice geographic and academic skills a variety of formatis cluding discussions, reports, preseintat, videos, and debate attendance in labs is mandatory. Lab material is examinable in the mialter final. All gradable assignmen (which may be both individual and group based) will be handed in and handed back in labs.
- Fieldtrip —One of the signature ways of learning in geography is the fieldtrip. With so many of us we cannot take bigrips but fieldtrips are such an important (and fun) part of geography learning that we have designed a minifieldtrip (in lab time) to give everyone a taste of the everyone at taste of the course Spaces site.

NOTE: Please kindly do not record (audio or video) any aspects of the course such as labs or lectures without first having written permission from me. Privacy laws require we must ask our colleagues first.

### **GRADE ALLOCATION FOR GEOG 101B**

	Marks	Important Dates
Lab assignments	35%	Due per the schedule provided in lab/Veek 2.
Midterm ExamI	15%	Feb 5 in-class
Midterm Exam II	20%	March 12 in-class
Final Exam	30%	University Exam Periodwill be postedater

## Please note:

- x All students are required to bring their UVic Photo ID with them and place it on the desk in front of them when taking an exam in this course.
- x The exact distribution of marks for labs will be handed out at your first lab session in week 2.
- x You must take all exams (two midterms and the final) and submit all lab assignments to pass the course.

# Rules regarding late assignments:

Deadlines for submission of your lab assignments will be given to youyour individuallabsby your TA Lab assignments are due in at the start (first minute) of the lab. In order to be fair tots dents who meet the deadlines, if you submit an assignmente you will lose marks in the followingary. The initial late penalty is 15%. For every day after that, you will lose 15% per day. All assignments must be submitted. Again, to be fair to everyone, acceptions will only be granted for medical reasons (requiring a written report from a medical practitioner stating the reason from inability to attend class a maximum of one week) laterceptions can only be granted by the course instructor.

Making sure you retain your academic integrity in this course

Feb2 (5)	Population Geography	Chapter 4	Lab 4 Reading the neighbourhood: your group will be assigned a neighbourhood to analyse using the urban and social "reading" techniques you have learned. You must spend at least the equivalent of your lab time with your group in your assigned location/role. Take field notes, pictures (with permission if you take pictures of people) and prepare your data.
			Write up your findingsusing the research development process you learned previously
Feb16 (7)	Migration, diffusion and Geographies of Health		Lab 5 Present your findingsublicly
Feb 23 (8)	Agriculture, development and agricultural development	Chapters 9 and 11	Lab 6 Agricultural development: case study and background data gathering
Mar 2 (9)	Human environment relations		Lab 7 Agricultural development: develop your proposal
Mar 9 (10)			Lab 8 Debating Global Issues Debate basicsdata gathering and role assignment Developing a collective rubric for assessing debate
