During our weekly meetings we will set aside to for groups to meet, share ideas, and reflect upon the process of volunteering and organizing for direct action.
- Your assignment itself will be to keep a field journal of your experience. I would encourage you to think
 of this as an 'ideas book', rather than a traditional journal or diary. In provides you with an opportunity
 to engage in critical and reflexive thinking about your project, and more broadly, the design and
 planning of cities. There is no set structure for the Field Journal and I simply encourage you to write up
 your experiences, reflecting in any way you want on what you have participated in, your reactions to
 it, and how it has affected you. You might consider including some of the following: selfsel06 Tc(n)1(g)10(u)-6(.3 T)
