

studies currently proposed in the course outline can be adapted based on the interests and needs of the class.

Department of Geography General Office. Digital copies must be submitted to the instructor and the Marking Assistant. The Term Project is to be submitted in printed format and digitally, and is due by 3pm on Thursday, April 6th.

Missing or late journal entries will not be marked. For the Indicator, Briefing Note and Term Project, 10% will be deducted for every day the assignment is late. Exceptions will only be granted for medical reasons (requiring a written note from a medical practitioner stating your inability to attend class) or other serious personal circumstances.

Academic integrity requires commitment to the values of honesty, trust, fairness, respect and responsibility. It is expected that students, faculty members and staff at the University of Victoria, as members of a scholarly community, will adhere to these ethical values in all activities related to learning, teaching, research and service. Any action that contravenes this standard, including misrepresentation, falsification or deception, undermines the intention and worth of scholarly work and violates the fundamental academic rights of members of our community. Students are advised to consult the university's Policy on Academic Integrity in the University Calendar.

The Instructor reserves the right to use plagiarism detection software programs, web searches, discussions with other instructors, or other methods to investigate evidence of plagiarism in all submitted materials.

The University of Victoria is committed to promoting, providing and protecting a positive, supportive and safe learning and working environment for all its members.

Students with diverse learning styles and needs are welcome in this course. In particular, if you

device. I will remind you and provide you with more detailed information nearer the time but please be thinking about this important activity during the course.

Jamie Alley is a natural resource and environmental management specialist with over 35 years of experience in a broad range of senior and executive management positions. Jamie is a geographer by training and has degrees from Simon Fraser University and the University of Victoria. After a career in the government of British Columbia, he currently operates a natural resource management consulting firm based in Victoria, BC. He has particular experience in coastal and marine issues, intergovernmental and trans-boundary relationships, and has been
