**Marine Protected Areas (MPAs)**

**January 10 – April 4, 2019**

**Instructor:** Ch Thursdays 6:30pm-7:20pm |

MacLaurin D111 | Jan 10 – April 4, 2019

**Course Description**

This class will focus on many elements inherent in marine protected area (MPA) design,

## Learning outcomes

At the end of the course, students will:

- x Analyze and connect core principles in ecological and coastal zone management theory to practice;
- x Critically evaluate MPA theory and management from an applied perspective;
- x Be familiar with the variety of MPA applications and why they may differ from place to place;
- x Examine the variety of tools and techniques used in the design and management of MPAs and
