

Field Studies in Ecological Design:

May 1st – 10th, 2020

University of Victoria Department of Geography

General Information

Ecological design is “the art and science by which we would remake the human presence on Earth” (David Orr), a partial antidote to the meta-crisis. In this field course, students will learn and apply a breadth of skills and knowledge drawing from climate impacts, resilience theory, community mapping, terrestrial, aquatic, landscape ecology, hydrology, design, and externalized

Friday, March 1st at 1pm
