Course Overview

EXAMS

Each of the two midterms will have 40 multiple-choice and 2 short-answer questions worth 5 points each. Each midterm is worth 20% of the course mark. Each midterm covers <u>only</u> the lectures and readings covered since the previous midterm. All exams include considerable material from lectures that is not included in the textbook. The April (final) exam is worth 25% and will have 60 multiple-choice and 3 short answer questions worth 5 points each. On this exam, 40 multiple-choice and two short-answer questions will cover material back to the 2nd midterm, and 20 multiple-choice questions and 1 short-answer question will cover material tested on the earlier two midterms. As a whole, the exams are worth 65% of your final mark. The written portions of exams will be retained for 10 days after each exam is returned. Thus, any concerns about grading must be resolved within 10 days after each exam is returned.

LABORATORY

The labs are meant to provide small-group experience with research and methods in environmental psychology. They are based on the idea that we learn by doing. They meet for 80 minutes about every other Thursday (see the dates in the schedule overleaf). Three short lab reports, worth a total of 15% of your course mark, that describe the studies that you help conduct,
