- **Grades & records**
- **Degree evaluation**

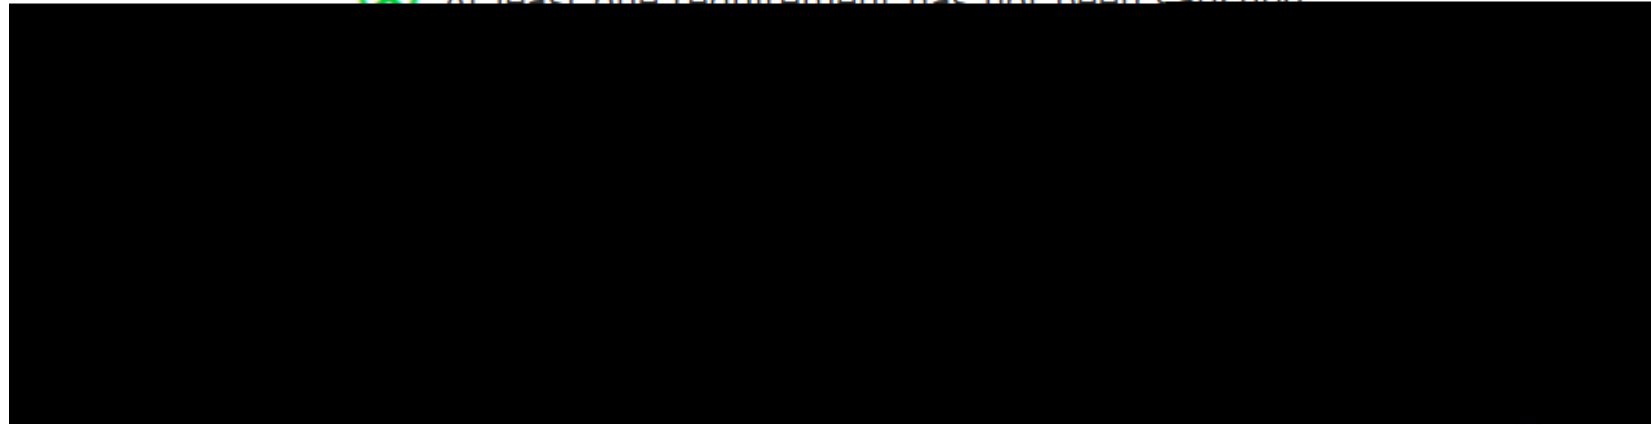

The top section of your CAPP report will identify your currently declared program, your faculty advisor, the degree you are pursuing, and the department you are in (e.g., Business Administration). The only place you can declare your intended program is in the top right corner of your report with the heading "catalog term".

When you are viewing status messages, you will see a red "X" in the top right corner, indicating the status of your degree progress.

 At least one requirement has not been satisfied.

After the overview, your CAPP report is made up of the following summary sections:...

1. General information
2. Degree overview
3. Summary of transfer credit
4. Summary of UVic courses completed or in progress

As well as information regarding your specific program and degree requirements: .....

1. Satisfaction of the Academic Advising Program requirements  
wards the residency, 100% and 100% of the requirements

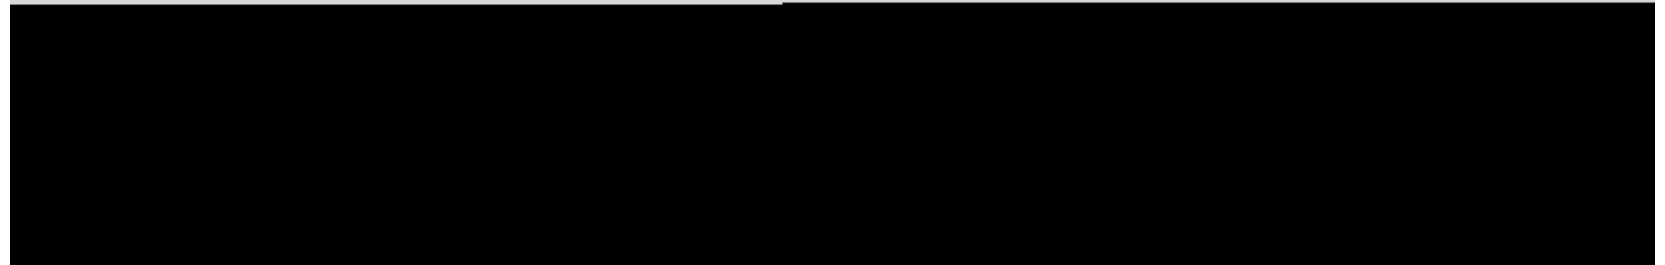

&

Related requirements from the list above are grouped and presented as a series of "areas". Most areas will list the specific requirements or criteria for completion below

...CAPP isn't able to formulate all the possible adjustments that an academic adviser might see, so it can't give you an accurate reading on electives. If you meet with an adviser, they can help you find the best way to meet your degree requirements.

If you are currently on a 60-unit program, you will need to take 6 more units to graduate. Look at the 60-unit program box, which will show you the minimum number of units you need to graduate. You must take 6 more units at the upper level (300- and 400-level). Don't forget that CAPP is only a guide; they must be at the upper level.

Assuming you are currently on a 60-unit program, you will need to take 6 more units to graduate. Look at the 60-unit program box, which will show you the minimum number of units you need to graduate. You must take 6 more units at the upper level (300- and 400-level). Don't forget that CAPP is only a guide; they must be at the upper level.

You must take 6 more units at the upper level (300- and 400-level). Don't forget that CAPP is only a guide; they must be at the upper level.

For most manual checks, an adviser will clear the information once relevant grades are submitted.

Records Services will calculate your graduating GPA once final grades are submitted. If you have a question about your GPA (Satisfactory/Unsatisfactory or Graduating), please contact Records Services.

A graduating grade point average is calculated by Record Services once all the grades are posted and a minimum GPA of 2.00 is required. This GPA is the weighted average. All courses taken at Uvic are included in the calculation, regardless of when you took them.

## QUESTION

1. The following table shows the number of people who visited the National Museum in London in each year from 1990 to 2000. The number of people is given in millions.

2. The following table shows the number of people who visited the National Museum in London in each year from 1990 to 2000. The number of people is given in millions.
